TROPICS

TROPICS is issued quarterly with one volume per year by the Japan Society of Tropical Ecology (JASTE), and publishes papers covering all aspects of ecology and ecology-related science. The journal is open to the results of original research, experimental or descriptive, and to significant reviews of aspects of the tropical regions. Its aim is not only to act as a valued means of communication between Japanese ecologists and other field scientists, but also to stimulate the research activities of ecologists and scientists of tropical regions. Those interested in contributing to **TROPICS** are highly encouraged to submit their work. Special issues may be published on occasion by decision of the editorial board.
